# Material Safty Data Sheet

| Product   | SR541  |
|---|--|
| 1. PRODUCT AND COMPANY IDENTIFICATION   |  |
|   | 00541  |
| <ol> <li>1.1 Product Name</li> <li>1.2 Recommended use of the chemical and restrictions or</li> </ol> | SR541  |
| Recommended use of the product  | Silicone sealant   |
| Restrictions on use of the product  | No data  |
| 1.3 Company information   |  |
| Company Name  | DAEHEUNG CHEMICAL CO., LTD.  |
| Address   | 52, Sandan-ro15beon-gil,Pyeongtaeksi,Gyeonggi-do   |
| Emergency telephone number  | +82-31-663-5251  |
| 2. HAZARD IDENTIFICATION  |  |
| 2.1 Hazard, Risk classification   | Skin sensitization: Category 1   |
| 2.2 GHS label elements  |  |
| Symbol  |  |
|   |  |
| Signal word   | Waring   |
| Harmful Risk phrases  | H317 May cause an allergic skin reaction.  |
| Precautions   |  |
| Prevention  | P261 In contact with water releases flammable gases.   |
| Flevention  | P272 May intensify fire; oxidiser.<br>P280 Contains gas under pressure; may explode if heated. |
|   | P302+P352 IF ON SKIN: Wash with plenty of soap and water.                                      |
| Corresponding   | P333+P313 If skin irritation or rash occurs: Get medical advice/attention.                     |
| Storage   | Not available  |
| Disposal  | P501 Dispose of contents and container in accordance with local regulations.                   |
|   |  |
| Amorphous, fumed silica<br>Health   | 0  |

## 3. COMPOSITION / INFORMATION ON INTEGREDIENTS

| Name   | Comon Name                                 | CAS No      | Contents(%) |
|--|--|-------------|-------------|
| Amorphous, fumed silica                            | Amorphous, fumed silica                    | 112945-52-5 | 5 ~ 10      |
| N-(2-Aminoethyl)-3-aminopropyltrimethoxysilane     | N-(3-Trimethoxysilylpropyl)ethylenediamine | 1760-24-3   | 0.1 ~ 1     |
| Methyl Oximino Silane                              | (METHYLTRI(2-BUTANONEOXIMYL)SILANE);       | 22984-54-9  | 1~5         |
| Polydimethylsiloxane                               | DIMETHYLPOLYSILOXANE/WATER<br>EMULSIONS    | 63148-62-9  | 20 ~ 30     |
| Siloxanes and Silicones, di-Me, hydroxy-terminated | DIMETHYL POLYSILOXANE                      | 70131-67-8  | 60 ~ 70     |

| 4. FIRST AID MEASURES                                      |  |
|--|--|
| 4.1 Eye contact  | Get emergency medical attention.   |
|  | Rinse skin and eyes immediately with plenty of water for at least 20 minutes when in contact with the material.  |
| 4.2 In case of skin contact                                | If skin irritation or rash occurs, seek medical advice and advice.오.   |
|  | Wash contaminated clothing before reuse.   |
|  | In the case of hot materials, immerse or wash affected areas in a large amount of cold water to remove heat  |
|  | Get emergency medical attention.   |
|  | Remove contaminated clothing and shoes and isolate contaminated areas.<br>Rinse skin and eyes immediately with plenty of water for at least 20 minutes when in<br>contact with the material. |
|  | Prevent spread of contamination on mild skin contact   |
| 4.3 Inhalation   | Move to a place with fresh air.  |
|  | If not breathing, give artificial respiration.   |
|  | If breathing is difficult, give oxygen.  |
|  | Please warm and stabilize.   |
| 4.4 Ingestion  | Get emergency medical attention.   |
| 4.5 Other precautions                                      | Have the health care worker know about the material and take protective measures   |
| 5. FIRE FIGHTING MEASURES                                  |  |
| 5.1. Extinguishing media                                   |  |
| Suitable extinguishing media                               | Use alcohol foam, carbon dioxide or water spray for digestion related to this material.  |
|  | Use dry sand or earth for digestion.   |
| 5.2. Special hazards arising from the substance or mixture |  |
| Hazardous combustion products                              | Container may explode on heating   |
|  | Some are burned but not easily ignited   |
|  | Non-flammable, the substance itself is not burned but decomposes on heating and may cause corrosive / toxic fumes  |
|  | May cause irritating, corrosive and toxic gases in case of fire  |
| 5.3. Advice for firefighters                               | Rescuers should wear appropriate protective equipment.   |
|  | Extinguish the area and maintain safety distance.  |
|  | Move container from fire area if it is not hazardous.  |
|  | In case of tank fire, extinguish at maximum distance or use unmanned fire fighting equipment   |
|  | Do not let water get inside the container.   |
|  | Cool containers with large amounts of water even after the fire has extinguished.  |
|  | n the event of a tank fire, if there is a high tone in the pressure relief device or if the tank<br>is discolored, immediately withdraw it   |
| 5.2 Advice for firefighters                                | Tanks Fires in a fire.   |

Some can be transported at high temperatures

Leaky water may cause contamination.

Contact may cause skin and eye burns.

#### 6. ACCIDENTAL RELEASE MEASURES

| 0. ACCIDENTAL RELEASE MEASURES   |  |
|--|--|
| 6.1. Personal Precautions, protective equipment and emergency procedures | Remove all ignition sources as very fine particles may cause fire or explosion.  |
|  | Wipe off any spills immediately and follow all protective precautions.   |
|  | Remove all ignition sources.   |
|  | Stop the leak if it is not dangerous.  |
|  | Do not touch a damaged container or spill without adequate protection.   |
|  | Cover with plastic sheet to prevent diffusion  |
|  | Note the substances and conditions to avoid  |
| 6.2. Environmental precautions   | Prevent entry into waterways, sewers, basements, and confined spaces.  |
| 6.3. Methods and material for containment and cleaning<br>up             | Absorb spillage with inert materials (eg dry sand or earth) and place in a chemical waste container.                                 |
|  | Absorb liquid and rinse contaminated area with detergent and water   |
| 7. HANDLING AND STORAGE  |  |
| 7.1. Precautions for safe handling                                       | Avoid inhalation.(Dust, fume, gas, mist, steam, spray)   |
|  | Do not carry contaminated clothing out of the workplace.   |
|  | Follow all MSDS / label precautions as product residues may remain after emptying containers.  |
|  | Avoid prolonged or repeated skin contact.  |
|  | Note the substances and conditions to avoid  |
|  | Refer to engineering controls and personal protective equipment.   |
| 7.2 Safe storage   | The empty drum should be completely drained, properly blocked and immediately returned to the drum regulator or properly positioned. |

#### 8. EXPOSURECONTROLS & PERSONAL PROTECTION

8.1. Exposure standards for chemicals, biological exposure standards, etc.

| Domestic regulation                                    |            |
|--|------------|
| Amorphous, fumed silica                                | No data    |

| Methyl Oximino Silane                                  | No data    |
| Polydimethylsiloxane                                   | No data    |
| Siloxanes and Silicones, di-Me, hydroxy-<br>terminated | No data    |
| ACGIH regulation                                       |            |
| Amorphous, fumed silica                                | No data    |
| N-(2-Aminoethyl)-3-<br>aminopropyltrimethoxysilane     | No data    |
| Methyl Oximino Silane                                  | No data    |
| Polydimethylsiloxane                                   | No data    |
| Siloxanes and Silicones, di-Me, hydroxy-<br>terminated | No data    |
| Biological exposure standard                           |            |
| Amorphous, fumed silica                                | No data    |
| N-(2-Aminoethyl)-3-<br>aminopropyltrimethoxysilane     | No data    |
| Methyl Oximino Silane                                  | No data    |
| Polydimethylsiloxane                                   | No data    |
| Siloxanes and Silicones, di-Me, hydroxy-               | No data    |
| terminated<br>8.2 Personal protective equipment        |            |
| Respiratory protection                                 | Wear a res |
|  |            |

Wear a respirator that has been approved by the Korean Occupational Safety and Health Administration in accordance with the physicochemical properties of the substance being exposed.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

| 9.1 Appearance     |
|--------------------|
| Physical Form      |
| Color              |
| 9.2 Odor           |
| 9.3 Odor threshold |

Paste Transperancy, White Oxime No data

| 9.4 pH  | No data |
|---|---------|
| 9.5 Melting point / freezing point                | No data |
| 9.6 Boiling point                                 | No data |
| 9.7 Flash point                                   | No data |
| 9.8 Evaporation Rate                              | No data |
| 9.9 Flammability (solid, gas)                     | No data |
| 9.10 Upper/lower flammability or explosive limits | No data |
| 9.11 Vapor Pressure                               | No data |
| 9.12 Solubility                                   | No data |
| 9.13 Vapor Density                                | No data |
| 9.14 Specific gravity                             | 1.02    |
| 9.15 N-octanol/water partition coefficient        | No data |
| 9.16 Autoignition temperature                     | No data |
| 9.17 Decomposition Temperature                    | No data |
| 9.18 Viscosity                                    | Paste   |
| 9.19 Molecular weight                             | No data |
|   |         |

# 10. STABILITY AND REACTIVITY

| 10.1 Possibility of chemical stability and adverse reaction |   |   |  |  |
|---|---|---|--|--|
|   | Amorphous, fumed silica                         | Container may explode on heating  |  |  |
|   | Amorphous, fumed silica                         | Some are burned but not easily ignited  |  |  |
|   | Amorphous, fumed silica                         | Non-flammable, the substance itself is not burned but decomposes on heating and may cause corrosive / toxic fumes                     |  |  |
|   | Amorphous, fumed silica                         | May cause irritating, corrosive and toxic gases in case of fire   |  |  |
| aminopr   | N-(2-Aminoethyl)-3-<br>opyltrimethoxysilane     | No data   |  |  |
|   | Methyl Oximino Silane                           | Polymerization: not polymerized<br>Reactivity: Contact with water or moist air may form flammable and / or toxic gases and<br>vapors. |  |  |
|   | Polydimethylsiloxane                            | Stable at normal temperature and pressure   |  |  |
|   | Polydimethylsiloxane                            | Container may explode on heating  |  |  |
|   | Polydimethylsiloxane                            | Some are burned but not easily ignited  |  |  |
|   | Polydimethylsiloxane                            | May cause irritation and poisonous gas in case of fire  |  |  |
|   | Polydimethylsiloxane                            | Inhalation of the substance may be harmful  |  |  |
|   | Polydimethylsiloxane                            | Some fluids may cause dizziness, suffocation-inducing vapors  |  |  |
| terminat  | Siloxanes and Silicones, di-Me, hydroxy-<br>red | Stable at normal temperature and pressure   |  |  |
| terminat  | Siloxanes and Silicones, di-Me, hydroxy-<br>ed  | Container may explode on heating  |  |  |
| terminat  | Siloxanes and Silicones, di-Me, hydroxy-<br>red | Some are burned but not easily ignited  |  |  |
| terminat  | Siloxanes and Silicones, di-Me, hydroxy-<br>ed  | May cause irritation and poisonous gas in case of fire  |  |  |
| terminat  | Siloxanes and Silicones, di-Me, hydroxy-<br>ed  | Inhalation of the substance may be harmful  |  |  |
| terminat  | Siloxanes and Silicones, di-Me, hydroxy-<br>ed  | Some fluids may cause dizziness, suffocation-inducing vapors  |  |  |
|   |   |   |  |  |

10.2 Conditions to avoid

Amorphous, fumed silica

N-(2-Aminoethyl)-3aminopropyltrimethoxysilane Heat source, spark, flame, etc.

No data

|            | Methyl Oximino Silane                          | Avoid heat, flames, sparks and other sources of ignition.<br>Containers may rupture or explode if exposed to heat. Keep away from waterworks and<br>sewers.  |
|------------|--|--|
|            | Polydimethylsiloxane                           | Heat source, spark, flame, etc.  |
| terminated | Siloxanes and Silicones, di-Me, hydroxy-       | Heat source, spark, flame, etc.  |
| 10.3 Subs  | tances to avoid                                |  |
|            | Amorphous, fumed silica                        | Combustible materials, reducing materials  |
| aminopropy | N-(2-Aminoethyl)-3-<br>/ltrimethoxysilane      | No data  |
|            | Methyl Oximino Silane                          | Oxidant  |
|            | Polydimethylsiloxane                           | Combustible material   |
|            | Polydimethylsiloxane                           | Irritant, toxic gas  |
| terminated | Siloxanes and Silicones, di-Me, hydroxy-       | Combustible material   |
| terminated | Siloxanes and Silicones, di-Me, hydroxy-       | Irritant, toxic gas  |
| 10.4 Haza  | rdous materials generated during decomposition |  |
|            | Amorphous, fumed silica                        | Corrosive / toxic fume   |
|            | Amorphous, fumed silica                        | Irritating, corrosive, toxic gas   |
| aminopropy | N-(2-Aminoethyl)-3-<br>/ltrimethoxysilane      | During burning, pyrolysis or combustion can produce irritating and highly toxic gases.   |
|            | Methyl Oximino Silane                          | No data  |
|            | Polydimethylsiloxane                           | No data  |
| terminated | Siloxanes and Silicones, di-Me, hydroxy-       | No data  |
| 11. TOXIC  | OLOGICAL INFORMATION                           |  |
| 11.1. Info | rmation about possible routes of exposure      |  |
|            | Amorphous, fumed silica                        | Exposure to respiration can cause pneumoconiosis in large quantities of inhalation<br>May cause nausea, vomiting and diarrhea by stimulating the stomach.<br>Exposed to skin contact<br>Exposed by eye contact |
| aminopropy | N-(2-Aminoethyl)-3-<br>Iltrimethoxysilane      | Respiratory tract burns, allergic reactions<br>Mucosa burn<br>Skin burns, allergic reactions<br>Snow burn  |
|            | Methyl Oximino Silane                          | No data  |
|            | Polydimethylsiloxane                           | Can absorb body by inhalation  |
